When the earth was young  
And the air was sweet  
And the mountains kissed the sky  
And the great beyond with its many paths  
Man and nature lived side by side

In this wilderness of danger and beauty  
Lived three brothers bonded by love  
Their hearts full of joy  
They ask now for guidance  
Reaching out to the skies up above

Great spirits of all who lived before  
Take our hands and lead us  
Fill our hearts and souls with all you know  
Show us that in your eyes  
We are all the same  
Brothers to each other  
In this world we remain  
Truly brothers all the same

Give us wisdom to pass to each other  
Give us strength so we understand  
That the things we do  
The choices we make  
Give direction to all life's plans  
To look and wonder at all we've been given  
In our world its not always as it seems  
Every corner we turn only leads to another  
A journey ends, but another begin

Great spirits of all who lived before  
Take our hands and lead us  
Fill our hearts and souls with all you know  
Show us that in your eyes  
We are all the same  
Brothers to each other  
In this world we remain  
Truly brothers all the same  
(repeat)
