The the darkside,  
The the the darkside. (4x)

Girl it's my mission to make u feel like  
You're flying so high high high.  
(Take you to the darkside)  
Girl there's no stoppin,  
I swear that I'm gonna make  
This your night night night  
(Take you to the darkside)

Bottles pop, secrets drop.  
That's way we like to f\*\*\*  
Me on top, get u hot.  
That's the way I hit the spot.  
It's your time, it's ur night.  
Making that body feel so right.  
Girl let go, I'm in control.  
Are u ready? Here we go.

Baby don't u be afraid to  
To step inside the world  
That I'm gonna take you  
Baby cause you know

Girl it's my mission to make u feel like  
You're flying so high high high.  
(Take you to the darkside)  
Girl there's no stoppin,  
I swear that I'm gonna make  
This your night night night  
(Take you to the darkside)

The the darkside,  
The the the darkside. (4x)

Work u up, take ya down.  
Makin it better every round.  
Feelin close? Fight it through.  
The night has just begun for you...

Baby don't u be afraid to

To step inside the world  
That I'm gonna take you  
Baby cause you know

Girl it's my mission to make u feel like  
You're flying so high high high.  
(Take you to the darkside)  
Girl there's no stoppin,  
I swear that I'm gonna make  
This your night night night  
(Take you to the darkside)

The the darkside,  
The the the darkside. (4x)

Girl it's my mission to make u feel like  
You're flying so high high high.  
(Take you to the darkside)
