Put me on the table
Make me say your name
If I can't remember
Then give me all your pain
I can sit and listen
Or I can make you scream
Kiss it and make it better
Just put your trust in me

[Chorus]

Oh my God, go a little slower
Oh my God, what was that again
La da da, let me feel you baby
Let me in, 'cause I understand
Let me feel you baby
'Cause I understand

[Rap]

I understand all
Now climb my sugar walls
Problem solved it's dissolved
with the solvent known as spit
Lickity lick not so quick it's a
Slick ride make my mink slide
'Cause were all pink inside

This can be really easy
It doesn't have to be hard
Here baby let me show you
I'll have ya, climbing up the walls
You got all the problems
I think that I can solve
Why don't you come in here baby
Why don't we sit and talk

[Chorus x2]

[Rap]

You like the top and the bottom
You make a drop and then caught 'em
And when you rock then you've got 'em

Oh my God 'em oh my God 'em

[Ad libs]
