Cold thoughts unite
Got the feeling the bug is screaming
She's got Asia on her mind
He is trying to get her high
The sun can't shine the light that you're looking for...
Stories from her friends
Of a world where people care
Share the last piece of bread with the suffering
Carry the scars until you die
The sun can't shine the light that you're looking for...
The sun can't shine the light that you're looking for...
Freakshow, just a freakshow
Freakshow, just a freakshow
She takes a blow back from her father
He tries to make her high
More than his daughter, his lover
Dangerous feelings fly
Freakshow, just a freakshow
Freakshow, just a freakshow
The sun can't shine the light that you're looking for...
Break free from this cage if that's what you're looking
for...
Freakshow, just a freakshow
Freakshow, just a freakshow
Looking for a place to hide
Looking for a place to hide
Freakshow, just a freakshow
Freakshow, just a freakshow
Freakshow, just a freakshow
Freakshow, just a freakshow
Freakshow, just a freakshow
She takes a blow back from her father
He tries to make her high
More than his daughter, his lover
Dangerous feelings fly, fly, fly, fly...
