As you face tomorrow  
Just the same old sorrow  
Got to find a cure  
Will it be forever  
I guess it's now or never?  
No one knows for sure

Are you lying to yourself now?  
Did you show your dismay?  
As you wake from your illusion  
It takes you higher, just takes you higher...

In this state of mind (state of mind)  
It's an endless test of time  
Got to find a way (find a way)  
That will guide you through the day

It's just a state of mind...

It's a downward spiral  
For your own survival  
Driving you insane  
You've been asking questions  
Can someone tell you  
There's just got to be an ending to this game

Are you lying to yourself now?  
Did you show your dismay?  
As you wake from your illusion  
It takes you higher, just takes you higher

In this state of mind (state of mind)  
It's an endless test of time  
Got to find a way (find a way)  
That will guide you through the day

It's just a state of mind...

What a state of mind!  
Must be driving you insane  
No one knows the answer anyway...

In this state of mind (state of mind)  
It's an endless test of time  
Got to find a way (find a way)  
That will guide you through the day

In this state of mind (in this state of mind)  
It's an endless test of time (test of time)  
Got to find a way (got to find a way)  
That will guide you through the day

It's just a state of mind...

It takes you higher  
Will it be forever?
