Turn on the blue, what do I see?
A bunch of hateful people talking to me
The crap they say's been heard before
And that's what started up the 2nd World War

So many people see what's going on
Heads should be lifted...

Keep your eye on the twisted (twisted)
We've seen it all before (all before)
Little minds can't be shifted (twisted)
Watch out they're back for more (back for more)

They call it pride to wave the flag
Shaving the hair off of their brainless heads
I think the world has seen enough
There's too much talking, now it's time to get tough

Too many people know what's going on
Heads should be lifted...

Keep your eye on the twisted (twisted)
We've seen it all before (all before)
Little minds can't be shifted (twisted)
Watch out they're back for more (back for more)

Hey twisted! - What's in your head? - So twisted
Hey twisted! - Go clear your mind - You're misled

Steps should be taken to stop what they're makin
Heads should be lifted... to see what's going on

They spread their mental disease
Ignorance needs a leader to make their mass increase

Keep your eye on the twisted
We've seen it all before (all before)
Little minds can't be shifted (twisted)
Watch out they're back for more (back for more)

Keep your eye on the twisted (twisted)

We've seen it all before (all before)
Little minds can't be shifted (twisted)
Watch out they're back for more

So keep you eye on the twisted!
