Somebody's out there in the cold  
Freezin' and starvin', I've been told  
Breathin' the air we are breathin'  
Somebody's out there in the heat  
Livin' in dryness and in need  
Breathin' the air we are breathin'  
Oh Lord, would you please have a heart  
Love is so far away  
Take your child to a place where no one cries  
To the place where the eagle learns to fly  
Only there will we find everlasting peace of mind  
In the place where the eagle learns to fly  
Somebody's stricken by disease  
Hopeless and prayin' on his knees  
Breathin' the air we are brathin'  
Somebody just like you and me  
And now he's gone, so who was he  
Breathin' the air we were breathin'  
Oh Lord, would you please have a heart  
Love is so far away  
Take your child to a place where no one cries  
To the place where the eagle learns to fly  
Only there will we find everlasting peace of mind  
In the place where the eagle learns to fly  
Oh Lord, would you please have a heart  
Love is so far away  
Just so far away  
Take your child to a place where no one cries  
To the place where the eagle learns to fly  
Only there will we find everlasting peace of mind  
In the place where the eagle learns to fly
