It's been five years since I've had a raise in pay
The way things are going I could get laid off any day
Sure is hard livin with all this pain
I know what I need, I need somebody to blame

Chorus:

Teenage immigrant welfare mothers on drugs
It's all their fault
Teenage immigrant welfare mothers on drugs
They've got some balls
Teenage immigrant welfare mothers on drugs
They've got no class
Teenage immigrant welfare mothers on drugs
Let's send them back

My neighborhood library is about to close
The school my kids go to is becoming a joke
Self-serving liberals blame it on corporate tax breaks
But that's propaganda - I know who I should hate
Chorus

Who's to blame for the potholes, and flooding and drought
Who's to blame for inflation, unemployment and everything
I'm
Pissed off about
Who's to blame for the end of the good old days?
Who's to blame for the fact that I can't get laid?
Chorus
