Endless is my search for the life
The good Lord set me down on this earth for
Endless is the pain each time I try to find what he had
me in mind for
Endless are the reasons I give for the way that I live,
but who cares now
Endless is the road that I walk
To find someone to talk to who'll understand now

Endless is my search for the life
The good Lord set me down on this earth for
Endless is the pain each time I try to find what he had
me in mind for
Endless are the reasons I give for the way that I live,
but who cares now
Endless is the road that I walk
To find someone to talk to who'll understand now
