When the stars are falling down
I gotta feel it's going
So I need to see your body
Shining like a star

Your soul is in my hand
I need you to fight this mood
I believe you gotta chance
The way to watch me under the sun

Come taste the lucky man

Watching the sky... it's blue
Woa woa woa woa
Come face the lucky man
Won't take you to the ground

When the sun is going down
I wanna see you coming
You will see my body burning
Driving you so far
