Right when you say it has no sense at all. and when you
claim that all you wanted got lost. but if you break up
tell me this one thing. was it my fault or play of my
destiny?

I'm on my way. direction yesterday. to make undone
what's impossible now. just to make you see. how this
used to be. I never mind one thing. oh please come
back to me.

Now we are here. in splinters of ourselves. you look at
me with a blanky face. a big cry inside. outside then a
shot. that's when I wish to fucking press return.

I'm on my way. direction yesterday. to make undone
what's impossible now. just to make you see. how this
used to be. I never mind one thing. oh please come
back to me.

Wake me up from the death again
Wake me up.

It's just another big mistake. I can't return the things
that I have done. if you really want to end like this I
can't imagine how
The things will be.

I'm on my way. direction yesterday. to make undone
what's impossible now. just to make you see. how this
used to be. I never mind one thing.
Oh please come back to me.

I'm on my way. direction yesterday. to make me try to
change what the fuck has been so wrong? just to make
you see. I'm raising against me. I feel so wrong and I
don't want to lose you!
