I could scream but I just can't make a noise. I can't
dream cause my dreams about you're like poison. I
could die cause I'm near you and even so far. I could
cry cause you don't know what you are for me.

girl you've stolen my heart. you've stolen my heart.

well I'm standing by your side without a move. if there
was anything to say or to prove to you. I swear I would
do. I swear I would do.

when I look in your eyes my heart starts jumping higher
high.

when I see you smile I get the feeling I could fly away. I
could fly away.

when I'm standing next to you my heart's getting crazy.
and I just want to say that I fancy you. when I know
you've been with him my heart is beating no more. and
what you don't know is that I adore you.
oh girl I love you. oh girl I love you.

when I look in your eyes my heart starts jumping higher
high. when I see you smile I get the feeling I could fly
away. I could fly away.

I could fly away. oh girl I could fly away. I could fly
away. I could fly away.

I could scream but I just can't make a noise.
