remember the time we've been through. remember all  
the shit I've done to you. now I'm conscience-stricken  
and see this feeling of guilt is killing me. now that  
everything seems to be over I can feel in my heart it  
gets colder. I'm the one to blame cause I don't feel the  
same. I can feel your pain.

now we're here. now you've cried.  
I know it sucks to say goodbye. now you see all my lies.  
I know. I know it sucks to say goodbye.

remember the love it was suddenly crud. now all your  
tears have turned into blood. now that you're alone you  
think you're going to write a letter with bloody ink. now  
that everything is over you can feel blood running from  
your shoulder.

I was the one to blame I didn't feel the same. I could  
feel your pain.  
now we're here. now you've cried. I know it sucks to say  
goodbye. now you see all my lies. I know.  
I know it hurts to say goodbye.

now you're lying there on your bed. brightly waiting for  
your death. wasn't your best idea but you thought it  
would take the pain away. but you thought it would take  
the pain away.
