Invisible, but you can see it  
I want to show you, let me show you  
In your car, in my room  
Wherever we go, we bring our tune  
This song was made for us, somehow it'll never be  
enough

I hope you get chills at the beginning of the end  
Like I do, like I do  
I won't tell you when  
'Cause you'll know exactly when it comes  
If you just listen from the start to the end  
I know you will, good friend  
Turn the volume out the standard space  
Let me show you what I love

Listen to all the parts together  
This song makes me feel better  
So much better

Intangible, but you can reach out your arms and hold it  
Let me show you it's rock, it's rock solid  
I know this song is not perfect  
That's part of the reason  
I know this song couldn't be a hit  
That's why I love it  
I hope you get chills at the beginning of the end  
Like I do, like I do  
I won't tell you when  
'Cause you'll know exactly when it comes  
If you just listen from the start to the end  
I know you will, good friend  
Turn the volume out the standard space  
Let me show you what I love

Listen to all the parts together  
This song makes me feel better  
So much better  
Let me know just what you're thinking  
Is it purpose that we're feeling?  
And when it's over, show me your favorite song

In your car, in my room  
Wherever we go, we bring our tunes  
In your car, in my room  
Wherever we go, we bring our tunes  
This song was made for us, somehow it'll never be  
enough  
This song was made for us, somehow it'll never be  
enough  
I hope you get chills, I hope you get chills
