We'll get rid of the dictator, rebuild your country
Make sure all your kids go to school
We'll clean up the cities, get the sewage plants
Running
Institute parliamentary rule
We'll bring you autonomy, senators and judges
And a shiny new blue banner
We'll bring you pride and prosperity, food in your
Bellies
In every home a phone, fax and scanner
After we torture our prisoners

We'll bring you decades of peace, spiritual release
Free religious expression
You can say what you want in the papers you run
We'll never force a confession
After we torture our prisoners

The oil will flow just where it should go
Across the desert and into the sea
And you'll thank your God and the CIA

That finally you are free
After we torture our prisoners

You'll all be safe with us to protect you
And keep you out of harm's way
You'll thank creation and your liberation
From the dark into a new day
After we torture our prisoners

You can all jump for joy, each girl and boy
And look boldly into the distance
You'll be so happy for all that we've done
For such invaluable assistance
After we torture our prisoners

You won't have to worry about tyrants and bullies
Now that you have sovereignty
You can hold your head high, kiss Saddam goodbye
Say hello to democracy
After we torture our prisoners
