Mary alone with the merry go round
Caught in a trap now she couldn't be found
Who would have thought she would end up like this
I'm the one who left her

Last time I saw her she looked in my eyes
Smiled when I said this is not a goodbye
Who would have thought it would end up like this
I'm sorry I left you

Did you see through my eyes (did you, did you)
Did you know that I (I, I)
Never left you
Oh, when you said goodbye

No one will know
No one will find out what
Happened to our flower
Lost in the night

Did you see through my eyes (did you, did you)
Did you know that I (I, I)
Never left you
Oh, when you said goodbye

Did you see through my eyes (did you, did you)
Did you know that I (I, I)
Never left you
Oh, when you said goodbye
