What's wrong with me  
I am against the .. like a chase  
.. hating on me and my different taste  
..is nothing wrong with e  
I am just a .. society .. they judge me  
Judge .. like they know my pops  
, walked away so world can see  
They try to move me away  
I will never go  
They try to tell me the same  
But I will never go  
I will never go  
They try to tell me the same  
But I will never go  
I will never go  
They try to tell me the same  
But I will never go  
One mind one .. taking my .. make one decision  
Individuality ..try different with .. choose your direction  
.. cause they don't go ..  
I will never go  
They try to tell me the same  
But I will never go  
I will never go  
They try to tell me the same  
But I will never go  
I will never go  
They try to tell me the same  
But I will never go  
I will never go  
They try to tell me the same  
But I will never go
