

Dayna Kurtz "From The Bottom Up"

Visit "[From The Bottom Up](#)" on MotoLyrics.com

I found my love but where's my heart?
They love you from the bottom up
Your head comes all apart
My price went down my youth is gone
I hate this town my youth is gone
I went to bed a head of state
And now I mow the lawns
Careful what you wish for
I had a secret small and rare
Hell I had secrets everywhere
They withered in the light of love
And I don't even care
If they want me I'll be found
Just look for me I'll be around
I'll be wearing friday night
A few feet off the ground
Careful what you wish for
For heavy lids and whole wheat hair
Your sweetest smile and lusty stare
Whatever I can gather up
Whatever I can spare
I found my love I lost my heart
I found my love but where's my heart?
They love you from the bottom up
Your head comes all apart
