Break my secret rules  
These images I had  
As I was on my knees you found my hands  
Words couldn't say what you mean to  
This little boy who wrote this song for you

Both - we we're afraid of tearing down  
These walls around our  
Strong but jaded will of finding more than fake  
Romances  
Taught - me to protect myself  
From all these half-hearted affairs  
Pale emotions suck  
But the opposite is you - and the opposite is true

Chorus:  
Do I deserve everything -  
For me is you wherever I go through  
There will be you  
And if I had one wish I would decide  
Forever (to) be with you

Find my better self in every point of your view  
Is making sense - enrich my life with every word  
That I receive from you  
And with every touch of skin  
And at any place we've been  
I fell the sparks remain  
And when tears of reason speak  
In your arms I find retreat

Sometimes I long for your embrace  
Sometimes when you're asleep  
I kiss your face  
The greatest feeling in our life  
Love's not obsolete

Winding up - spilling blood  
Would kill myself for you  
Winding up - spilling blood  
Please put me to the proof
