

## **Days In Grief "Kill The Music"**

Visit "[Kill The Music](#)" on MotoLyrics.com

So listen up this time  
There's nothing new to find  
This is the music we've played for years - we love it  
This is the music of our heartbeats - we love it

Chorus:

This is more than we ever could pretend  
This is more than just a trend  
This is our life  
We take it back with every track  
This is not for your industry - this is for me

Don't let them sell you out  
Can't hear them talk about  
How many records you sold or not - we love it  
Sell your ringtones and let us rock - we love it

Nothing's left to say  
That's why we're singing  
You can't take it away  
The honesty remains  
You can't kill the music that pounds  
Deep in our hearts
