

Days Of Fate **"Open Sky"**

A windy day
Came up and blew into my face
I sailed away
With all the needs here in my case

I'm searching here
And the destination place
Seems to be near
Now that I am free

And I'm gonna be happy
Taking my feet from the ground
I'm gonna be happy

To fly with creations I found

A gleaming ray
Across the open sky
Exciting days
I'm flying high

A gleaming ray
Across the open sky
Impressive days to fly

Yes I'm gonna stay
Just another day
On this impressive way
