Nobody asked for forever  
Nobody wished for goodbye  
After the hurting  
What was left to do  
Was I ever in your heart at all

Refrain:

Speak to me one last time  
Take me in your arms  
See how they've found us  
At the end of the line  
I've got to break away  
Maybe we'll heal someday  
For now there's no reason to stay

Babe as you walk away  
Where do you go  
Is there somebody else waiting  
I tried to be everything  
You wanted me to be  
But now, what am I to you?

Repeat Refrain:

Coda:

How could I start it over  
When there's nothing left inside  
But a love that never dies...

Repeat Refrain:
