"The Secret Place"

Visit "[The Secret Place](#)" on MotoLyrics.com

There's a place we run to
No one sees
A place untouched
By human dreams
Water flows, in truest blue
Brings to life a dream of you

I can't go back
To life as it was

This place I go
Cannot be seen
Save for eyes
Mixed blue and green
Dragonflies high in the air

Thoughts of you dance everywhere

I can't go back
To life as it was

Come on let's leave this place
We disappear without a trace

Vanish into the air
You cannot find us anywhere

Come on love leave this fear
We can erase forgotten years
