

Pitchshifter "Slip"

Visit "[Slip](#)" on [MotoLyrics.com](#)

I slip when eat, I slip when I slip.

Fall down to my knees I slip when I seem.

I slip when I see you, kick when I fall through,

I slip when I seem, I slip when I
See you coming step aside (you step aside)

And I slip when I see you coming every time (it's every
time)

I slip when I need, I slip when I feed.

Emphatic disease I slip when I seem.

I slip through the meaning, tripped on the feeling.

I slip when I seem, I slip when I
See you coming step aside (you step aside)
And I slip when I see you coming every time (it's every
time)

It's every time you do what's right,
you step aside - I said you kick it.
Keep myself in a modern mind.
You can't break us don't waste your time,

You can't take us to severed scenes,

Kill yourself on the medicines.
And I slip when I see you coming step aside (you step
aside)
And I slip when I see you coming every time (it's every
time)
