Did you ever see the sunset?

Felt it arrive
Eve of their hand
Answer denied

Crept up on me
Cancelled young Ben
Now he believes

Did you ever see the sunset?

How emotions send us further
In and down our ever learner
Tongan thoughts will make it turn around
And face me

Reject highs I still can realise
I survive to open my prize
Every minor man in disguise
I know you

Its world again
Time on the road
Thought me alone

Will it depart
Will it reside
Can I please just be Ben again

Did you ever see the sunset?

Now I found you
Now I found you
Now I found you

Did you ever see the sunset?
