

A-Bones

"Nowhere To End"

Visit "[Nowhere To End](#)" on MotoLyrics.com

Watching your shadow is never enough
To know what your feeling hidden in you
Trying a way out to make you understand
If you could only read out my mind
You will know that I got no nowhere to end

Now walking with sorrows far behind you
For all things that I've done for all that I've wrong
Trying a way out to heal up my wounds
Cause I can never think of life without you
You should know that I still got nowhere to end

* Fallen so deep inside I cannot escaped
Your love is all that I need
To save me from tears
Can't let you go... oh...
'Cause nowhere to end

Now I've realize what I done that hurting you bad
Know I don't never mean to wish you goodbye
So you keep running away from me
Let me one more chance this time I swear
And you will know that we'll never find
Nowhere to end
(Repeat *)

Wish I could beeline to some other day
And stir new hope in you to share out the views
I wanna let to make you mine
You got to know we gotta find
Nowhere to end...
