

A.K.A.S., The "Shout Out Loud"

Don't it smell like shit on the streets of New York
City? Can you see through the smog in the skies of
Hollywood? All around the world.
.. all the people gonna shout out loud.
All around the world... all the people gonna shout
out loud. Raise your hands,
unrest is your best friend.
Stand up, open your mouth.
Gonna start a revolution. Raise your hands,
unrest is your best friend.
Stand up, open your mouth and shout out loud.
The sun don't shine through the clouds in the skies
of London. Some walls have yet to fall across the city
of Berlin. Can you see the red lights glow in
Amsterdam?
Everywhere I go, nothing's changed except the
goddam
names. Shout out loud. Don't it smell like shit on
the streets of New York City?
Can you see through the smog in the skies of
Hollywood?
Do you know the way the wind blows in Chicago?
Everywhere I go, nothing's changed except the
goddamn names.
