I've been around the world in the Hollywood, yea she's up to no good..... Keep steppin' outside with my hands.. Hey, isn't she real grand..? -Can you stomach this.. She's around the world again today, saw her all in her dismay. Come to play? Is that your church on what way? You gotta' pay to follow that cheater, bottom feeder you say... What a burn factor ten, mind of special K... Look at the talent of H & Vine, suck you off (all), so they can climb, it takes less time, walking that fine line.... -Can you stomach this? She wants to stomach this.. All night long. -Can you stomach this....? The damm devil, yea, he thrives on pride, your back stung up from that bitch hive..So as the plot thickins', things become more easy picking.. Drop to your knees and just say, Please? We can skip the strip tease.. :()
