down to the well

betty always knows  
betty always tells  
she laughing desperately  
she said it felt like a river inside her bones  
when she went down to the well

gonna be with her  
she is gonna take me there  
lead me by my hand  
her body a rocking chair for my soul

i can hardly wait, baby  
i can hardly wait

'til we go down to the well  
down to the well

been thinking to myself  
and if a life's not long  
what matter does it make  
if there'll be favorite songs playing in my head  
when we go down to the well

i can hardly wait, betty  
i can hardly wait  
'till we go down to the well  
down to the well
