One, two, three, four

My father lives in Arabia
And I live right here at my school
I took his plane to Colombia
So I could sell at my school

It's weird at my school
It's weird at my school
It's weird at my school
It's weird at my school

My mother's glad that I am here
So she can visit my school
I can't believe she's so pretty
I'm a son of a bitch at my school

Weird at my school
It's weird at my school
It's weird at my school
It's weird at my school

And my best friend, my cousin Eleanor
She lives far away from the doors of my school
And often times, you know I fantasize
That I have sex with the nuns at my school

It's weird at my school
It's weird at my school
It's weird at my school
It's weird at my school

It's weird at my school
It's weird at my school
It's weird at my school
It's weird at my school
