Inside this city's limits  
You'll have dreams but you'll never live them  
So light a match and watch it burn

You'll have a life but it will be worth nothing  
So you better reach out for something  
And hold on for all it's worth

And you better believe,  
This city offers nothing  
And you gotta see  
The things won't change  
And you better believe,  
This city's ours for the taking  
So let's all burn it down  
Tonight, tonight, tonight

And if you try to leave here  
This city's way will sure reach you  
Unless it's all been blown away

So let's the light the kindling  
That's made up of you and me  
Burn 'em down  
Burn it down today

I see this city for what it is  
Nothing more than a burial ground  
For our caskets  
Look at the skyline,  
Look at the streets,  
There's nothing left but shattered dreams  
So are we gonna sit around,  
Or are we gonna burn it down tonight?  
Burn it all down to the ground tonight
