

Dead Hearts

"Dusk"

Visit "[Dusk](#)" on MotoLyrics.com

Endless nights bring on endless days
We have to live with our mistakes
Will we ever see our dreams again
Will this dark night never end

These are the restless times
These are the sleepless nights
These are the restless times
These are the sleepless nights

These are the restless times
These are the sleepless nights
These are the restless times
These are the sleepless nights
These are those restless times
These are the sleepless nights
These are those restless times
These are the sleepless nights
