-----  
After the rain we  
Made love  
Wearing soaking wet  
T-shirts  
Under the  
Marmalade sky  
A rainbow like a palette

The stars rule  
Our destiny  
We are funky love children  
We promised each other  
Barefoot  
Love me funky love child  
There's just the two of us  
On earth  
Kiss me funky love child  
Just like children we  
Hug wearing  
Rags

The blue night  
Gets the city wet  
Stars twinkle above harlem

Scorpio and  
Aquarius  
Are the signs of our love

The moon goes full  
Then starts to wane  
We are funky love children  
A trick of god  
A puppet of love  
Love me funky love child  
Just the two of us on earth  
Kiss me funky love child  
Just like children we  
Are afraid of dark  
Love me

The stars rule  
Our destiny  
We are funky love children  
We promised each other  
Barefoot  
Love me funky love child  
There's just the two of us  
On earth  
Kiss me funky love child  
Just like children we  
Sit on the sidewalk  
And hug

The moon goes full  
Then starts to wane  
We are funky love children  
A trick of god  
A puppet of love  
Love me funky love child  
Just the two of us on earth  
Kiss me funky love child  
Just like children we  
Cry out loud  
Love me
