Even though I'm in love
For no reason,
Something
Feels blue

Even though it's a
Happy summer afternoon
Everything seems terribly blue

Let's drive off
Together
And leave behind this sleepy town

Because I'm turning up the speed
Right away
Give me a kiss
Let's get away
Right away
Just you and i
From this boring world
The night is starting
A night without a god

It's not your fault
For no reason,
I'm
Always blue

Let's drive
Just a little more
We'll pass through shooting stars
All night long

Because I'm turning up the speed
Right away
Give me a kiss
When I stop the car
In all the world
It's just you and i
There's nobody else
Blow away the sadness
We'll turn up the speed
Right away
