Kanashikunaru hodo
London paris

Can you say you love me
Even if we don't have a future?
Can you say you love me
Although you're so cold to me?

Stop look and listen

You are too distant from me
We're like london and paris
It takes only an hour to get there
But london and paris are in
Different time zones
That's why this won't work
We even speak different languages

We were doomed
From the start
I were not made for each other

Can you say you love me
Even if we don't have a future?
Can you say you love me
When you're such
A cold-hearted bastard?

Stop look and listen

We don't think alike
We're just like london and paris
Not that far away
You just get
On a plane and you're there
But it's hopeless
I don't have
A passport to your heart

We were doomed
From the start
I were not made for each other

That's why
We were doomed
From the start
We won't be together for long

We're just like london and paris
So much so it breaks my heart
