CABIN FEVER

Out by the campfire  
The atmosphere is starting to turn  
This is your last day of decadence  
Before your flesh starts to burn  
You had it all planned out  
Except for the uninvited guest  
Soon the terror will haunt your flesh  
You'll be screaming like the rest

Deputy Winston, please  
Take me away from here  
Away from the terror  
Away from the fear  
You did your best  
But couldn't save her  
And now you're falling apart  
Cabin Fever
