Busy like a bee buzzing round the honey tree,  
(I'll always be there!)  
Here's the right lock that fits the right key,  
(I'll always be there!)  
Just like a wave breaking on the seashore,  
(I'll always be there!)  
I'll be the knight you've been waiting for...  
(I'll always be there!)

Just like a tear when you start to cry,  
(You'll find I'll be there!)  
As the burning sun sets in the sky,  
(You'll find I'll be there!)  
Just like a river that follows a stream,  
(You'll find I'll be there!)  
There's no sleep without a dream...  
(You'll find I'll be there!)

Don't tell me that, the world's got it wrong,  
When people say we don't belong,  
(Coz I'm right by your side...)

By your side!  
(Till the world stops turning...)  
I will be waiting, waiting,  
By your side!  
Ahhh Ohhh...  
By your side!  
(Till the world stops turning...)  
You know I'm waiting, waiting,  
By your side!  
Ahhh Ohhh...

Just like the flame that follows a spark,  
(I'm gonna be there!)  
I'll be your teddy when you're frightened of the dark,  
(I'm gonna be there!)  
Just like a shadow when you're walking in the night,  
(I'm gonna be there!)  
I'll be the moon watching over you at night...  
(I'm gonna be there!)

Don't tell me that, the world's got it wrong,  
When people say we don't belong,  
(Coz I'm right by your side...)

By your side!  
(Till the world stops turning...)  
I will be waiting, waiting,  
By your side!  
Ahhh Ohhh...  
By your side!  
(Till the world stops turning...)  
You know I'm waiting, waiting,  
By your side!  
Ahhh Ohhh...

Forever more, I'll always be here forever more,  
I may have lost the battle but I'll win the war!  
From now till forever! I'll wait till whenever!  
Just to hold you again girl, I'll never say never!  
Kiss and tell,  
I'll treat you well,  
In love I fell,  
Head over heels girl, I'm right by your side!  
Where've you been?  
My summer queen?  
I know I've seen a great love, and that you are my  
dream girl...

Don't tell me that, the world's got it wrong,  
When people say we don't belong,  
(Coz I'm right by your side...)

By your side!  
(Till the world stops turning...)  
I will be waiting, waiting,  
By your side!  
Ahhh Ohhh...  
By your side!  
(Till the world stops turning...)  
You know I'm waiting, waiting,  
By your side!  
Ahhh Ohhh...
