Back in the days when we first met
those time we had I'm never gonna forget
long summer nights and lazy days
we knew our love was not a passing phase
suntan lotion that familiar smell
I made you a necklace from a chain of shells
the sand on my feet and the warm sea breeze
a kind of romance that's hard to believe

Our bodies together beneath the palm
We had our first kiss I melted in your arms

Chorus: I'll give you my love an eternal love
from me to you if you return
A token of love an eternal love
from you to me i'll give my love

** When autumn leaves were on the ground
we had long walks together with no one around
long conversations alone in the park
that carry on 'till way after dark
winters chill and icy streets
inside is warm on the christmas eve
The fire burning our bodies yearning

Round and round the wheel of loves are turning
Chorus: I'll give you my love an eternal love
from me to you if you return
A token of love an eternal love
from you to me i'll give my love

So promise me (will you promise me)
and i'll promise you an eternal love, eternal love.

The very first fragrance of spring is in the air
And each and every moment we still love to share
Alone together Just the two of us
It was then I know my heart belonged to you
Mmmm.. summers here

Chorus: I'll give you my love an eternal love
from me to you if you return

A token of love an eternal love
from you to me i'll give my love

So promise me (will you promise me)
and i'll promise you an eternal love, eternal love.
