"Perfect"

I think about you all night
When you're gone I dream of you
Write your name upon my window
You're perfect

I see the moon is out tonight
See your silhouette so bright
It only lights your beauty
You're perfect

Come to me with an open hand
I'm never gonna leave
I'm gonna make you understand
Look at me with a tear- stained smile
Forever in my dreams, you're perfect girl
You're perfect (Perfect in every way)

I won't ever say goodbye
I won't ever make you cry
As long as you are in my arms
You will never need to fear
Just as long as I am here
As long as you are in my arms

Come lay down here beside me
And lay a kiss upon my face
And say you're mine forever
You're perfect
