Words leave my heart dry  
Words can't save life  
Love has no place here  
No joy, no tears

Darling, time's changed  
Time leaves, time fades  
Pease see through my eyes  
Save your tears for the next who dies

I shout but he don't hear  
I put down on the page  
Darling spare me your tears  
Just send me the light of day

I shout but he don't hear  
Just put down on the page  
Darling spare me your tears  
Dear god please send me the light of day

Feel his heart wired  
Heart like gunfire  
Gunfire  
Gunfire  
Gunfire
