In came a girl with the saddened eyes
And asked him over again and again
Was I to weak
Was I a child
And can't believe they must start
Again
Mm-hmm ohhh-hooo

Say I don't mind if you take me down
And I don't mind if you break it all
But how much more can you take from me
How much more can you take from me
I'd like to take you inside my head
I'd like to take you inside of me
He came from heaven is all he said
You came from heaven and came into me
Ohh-hooo, ooh-hooo

He drove it fast and made it the whole night
And daddy's angel where she layed
Rested my head and closed her eyes
And outside the heat in those summer days
Deep in the sky a storm it seemed
Deep in the sky a storm it seemed
They make nothing no girl so sweet
Took them from heaven and gave them to me
Took them from heaven and gave them to me
Took them from heaven and gave them to me
Took them from heaven and gave them to me
Took them from heaven and gave them to me
