In the forest lives a monster  
he has done terrible things  
so in the wood it's hiding  
And this is the song he sings

Who will love me now  
Who will ever love me?  
Who will say to me  
You are my desire  
I'll set you free

(Who will love me now)  
Who will forgive and make me live again  
Who will bring me back to the world again  
(to the world again)

In the forest lives a monster  
and he look so very much like me  
is there someone hear me singing?  
please save me please rescue me

who will love me now  
who will ever love me  
who will say to me  
you are my desire  
I'll set you free

Who will love me now  
Who will ever love me  
Who will say to me  
You are my desire  
I'll set you free

(Who will love me now)  
Who will love me now  
Who will ever love me  
Who will love me now  
Who will ever love me  
Who will love me now  
Who will ever love me
