Cro was a smart boy, had a lot on the ball,  
But the family that took him in was total Neanderthal.  
Cro, just a memory of a mammoth friend named Phil  
Who was found by the scientist Dr. C and Mike in the Arctic chill.  
Phil fell into a glacier, it was like a big deep freeze,  
But he was brought back to life to his surprise in the 20th century.  
So listen as Phil takes us back to wonders of long ago  
And the weaves of a tale of Woollyville and an Ice Age boy named Cro-o-o-ooo cro-  
o-o-ooo. Cro
