Oh, wait a minute baby girl, can we sit down?
There's a couple of things we need to talk about
When you get mad at me, do you really mean what you say?
Or is it just one of them days, when things ain't going your way
Can we talk about it? Without the shouting
I know we got issues, I don't wanna lose you
Can't let this thing fall apart, knowing that... I got the hardest
... start all over again

Everybody has their arguments
We all have issues that we need to deal with
Can we talk about it? But that don't mean we can't get over it
Cause it won't be the last time, can't be the last time
With 2 hearts, one future, girl it's hard
But we can't let it go, cause they wanna see us apart
What I'm saying is, that we have some...
Cause it won't be the last time, can't be the last time

Can't be the last time, that you get mad at me
For forgetting every little anniversary
... like we living up in jealousy
Can't be the last time, when you say I don't do this
When you say I don't do that, but you know I ain't perfect
Got no way to explain it, but I know we can make it
I know we got issues, but I don't wanna loose you
Can't let this thing fall apart, knowing that... I got the hardest

... start all over again

Everybody has their arguments
We all have issues that we need to deal with
Can we talk about it? But that don't mean we can't get over it
Cause it won't be the last time, can't be the last time
With 2 hearts, one future, girl it's hard
But we can't let it go, cause they wanna see us apart

What I'm saying is, that we have some...
Cause it won't be the last time, can't be the last time

I love the things you do, reminds me of the reasons
why I'm with you
Like when you walk to the door, when your clothes hit
the floor
We're just about to break up, and now we bout to make
up, yeah, yeah, yeah
Oh, oh, oh, oh uh whoa
Can't you see yeah, oh, whoa, let's make up...

Everybody has their arguments
We all have issues that we need to deal with
Can we talk about it? But that don't mean we can't get
over it
Cause it won't be the last time, can't be the last time
With 2 hearts, one future, girl it's hard
But we can't let it go, cause they wanna see us apart
What I'm saying is, that we have some...
Cause it won't be the last time, can't be the last time X
