"Leave A Legacy"

Visit "[Leave A Legacy](#)" on MotoLyrics.com

I want to give a pure intention
Speak with words of grace
And judge through eyes of mercy
I long to choose with holy wisdom
To walk down paths of peace
Taking love to every soul in need

I want to leave a legacy
That a servant who believed
That the world could still be changed by just one life
I want to leave a legacy
That years from now they'll see
That I lived only for the cause of Christ

If I could clearly see tomorrow
The humble prayer would be
That every heart would beat with true faith
If I could somehow shape the future
I would hope and pray
I touched lives by the way I lived today

I want to leave a legacy
Of a servant who believed
That the world could still be changed by just one life
I want to leave a legacy
That years from now they'll see
That I lived only for the cause of Christ

Oh to make a difference
By living day to day
As a reflection of God

I want to leave a legacy
Of a servant who believed
That the world can still be changed by just one life
I want to leave a legacy
That years from now they'll see
That I lived only for the cause of Christ
