It's hard to imagine that  
I've been there too  
I've felt the passion burning in you  
Every temptation, oh, I understand  
Your savior knows what it is to be a man

CHORUS:

Promise me... promise me...  
Before the passion turns to flame  
Promise me you'll call my name  
Promise me... promise me...  
You'll remember these scars of grace  
And remember I took your place  
Promise me

I know what it's like when the  
Nightmare comes true  
Someone left a cross for me  
Like they left for you  
Trust me when I say... I've been  
Where you are  
The strength to live again my child is  
Hidden in the scars

CHORUS

For those who stand, for those who fall  
Strength is found in one place  
Beneath my cross crying out for grace

CHORUS
