Everything old is new again
Everything old is new again
Everything old is
Is new again

Everything old is new again
That's why im here with you my friend
Everything old is
Is new again

Then you know
Then you know
Then you know why we love

Then you know
Begins to show
Then you know why we love
Because

Everything old is new again
Everything old is new again
Everything old is new again
Is new again

Then you know
Begins to show
Then you know why we love
Because

Everything old is new again
Everything old is new again
Everything old is new again
Is new again
