"Perfect"

You're blinding me
'Cuz I can't see the bad stuff
You can take it all
And stand strong through the pain
What you give to me
Is the us in a new beginning
What I finally see is the answer

Perfect
Yeah, you and I
There's something about us, girl
Makes me realize
Perfect, perfect
Whenever you're near
There's something in the darkness
That's perfectly clear

You know I speak the truth
When I say don't ever leave me
I'd be a bird in a storm
If you ever walked away
There's a feeling here
That I won't trade for nothing
There's a feeling here
Stronger than love

The world it needs a lover
But it's not in the moon
No matter where I am
I'm gonna be home soon
You know there's nothing wrong
With our love today
We're good
Good to stay
