You with your wagon
And me with my lamb
You by the water
And me as your hand
Reach inside
If you believe me
This hold will last
Just as long as I can handle
This emotional harassment

And I pray
Pray I don't die

Why me, why you
Everybody's turning blue

I never asked him
To help me at all
He's never been there
While I watched the world fall
If you're left with nothing
You can call yourself true
But by the time that you are cool
There will be nothing left for you

And I pray
Pray I don't die

Why me, why you
Everybody's turning blue
Why me, why you
Everybody's turning blue
Why me, why you
Everybody's turning blue
Everybody's turning blue

And I pray
Pray I don't die
