I am the one who can make things happen
And I am the one who falls onto the floor
Where are the words, where is the day
Where are the things that I wanna say
If I believe and you believe
And we can believe
That it's a world made up of dreamers
In a distant hum I can feel the world love
Everytime that I go out
I can feel her arms around me

I got this part from your telephone calls
Wish I had a videophone
You make me wanna buy a gun and
Blow holes in my home

God speaks your name to me
Through rock songs
You know it's true
What He says to me, He might say to you
What He says to me, He might say to you

You can throw stones hard
You can throw stones far
Bounce off of me
Might break my guitar
Cause I am a boat
I am a lake
I am a storm that don't wanna wait

I come and you give to me
I give and you come to me
I dream that you give to me
I dream that you come to me

You can throw stones hard
You can throw stones far
Bounce off of me
Might break my guitar
Cause I am a boat
I am a lake
I am a storm that don't wanna wait

You make me wanna buy a gun
So I can blow holes in your home
do do do do fãçã, -ã,ã|do do do do fãçã, -ã,ã|do
do do do fãçã, -ã,ã|do do do do

You can throw stones hard
You can throw stones far
Bounce off of me
Might break my guitar
Cause I am a boat
I am a lake
I am a storm that don't wanna wait

You can throw stones hard
You can throw stones far
Bounce off of me
Might break my guitar
Cause I am a boat
I am a lake
I am a storm that don't wanna wait

You can throw stones hard
You can throw stones far
Bounce off of me
Might break my guitar
Cause I am a boat
I am a lake
I am a storm that don't wanna wait
